

# TLC Technologies, Inc.

## Company Overview

**Thomas F. Foley**  
President

Mr. Foley founded TLC Technologies in 1997 after successfully completing 8 years fulfilling consulting & management positions with first Keane, Inc. and then Electronic Data Systems. During his tenure with Keane and EDS, Mr. Foley was focused on database technology and an early adopter of the OLAP & Graphical Delivery technologies that drive the Enterprise Performance Management (EPM) and Business Intelligence (BI) platforms available today.

After completing numerous projects and attaining the level of a certified consultant, Mr. Foley decided to form his own firm and TLC was born in 1997.

Since inception, Mr. Foley has been a hands-on manager focused on the growth of the company and has acted as the lead architect on several major projects.

TLC & Mr. Foley continue to grow in depth and breadth as the EPM & BI market-place evolves and are proud to announce that in March 2012 TLC celebrated its 15th Anniversary in business.

**TLC Technologies, Inc.** is a professional services consulting firm focused on Business Intelligence (BI) and Enterprise Performance Management (EPM) Solutions. TLC is a certified consulting and reselling partner with many software companies including: Oracle (Hyperion), Prophix Software, IBM (Cognos / TM1 / Clarity), Microsoft and Applied OLAP.

The firm specializes in the rapid definition, development and delivery of custom BI/EPM solutions. Since 1997, TLC has consistently exceeded our client's expectations and our innovative solutions have saved these companies millions.

Our certified professionals focus on the implementation of complex applications and our goal is to quickly deliver actionable, decision-ready Business Intelligence applications to help our client's measure performance and drive profitability. Our consultants are senior-level, certified professionals who listen closely to your organization's unique challenges and apply their diverse industry expertise, gained from working with businesses in every sector of the marketplace, to build an efficient and flexible BI/EPM solution to meet your needs.

TLC strives to craft long-term relationships with our customers, being available as needed and leveraging our skill to ensure mutual success.
